Videofied

Dispatch Police!

WARNING
THIS PROPERTY IS SUBJECT TO
24 HOUR / 7 DAY
LIVE VIDEO & AUDIO
MONITORING & RECORDING
 **800-229-6693**
www.HPIsecurity.com

With Videofied (a Video Verified Alarm) HPI keeps 24/7/365 watch over your property. Better than a normally blind alarm system and more effective and much, much cheaper than a guard or watchman a Videofied alarm goes straight to HPI's Central Station dispatcher who can then see the intruder and provide police the information that will get your alarm a priority response. Saving time, getting results!

The dispatcher is not blindly sending police or you to an unknown, possibly false alarm. They see what triggered the alarm. The dispatcher can quickly determine if the alarm is valid and dispatch police immediately without having to make calls to verify. The police are told that HPI has verified thru video that, "an intruder is on the property". Police respond quicker because they know it's a crime-in-progress.

You can get a video clip emailed to you or the police as evidence. And you can look-in anytime and pull a clip thru select viewers.

- ✓ False alarms get no dispatch & no false alarm fines. That raises the reliability of those alarms that we do dispatch on.
- ✓ Police (& you) know what to expect when you arrive on the scene.
- ✓ Crimes-in-progress receive higher priority response.
- ✓ Completely wireless quick installation and easily repositioned. No phone lines or power needed.
- ✓ Videofied devices are motion detectors with a night vision camera that is built to highly critical standards.
- ✓ Not a CCTV Digital Video Recording System that only collects evidence of events that have happened.
- ✓ Videofied happens in real time.
- ✓ Videofied sends a 10 second eyewitness video clip of what triggered the alarm that can be emailed to you and/or police as evidence.

Don't Dispatch Police!

HPI's Goals:

Priority Response. No False Alarms.

Call 800-229-6693 today for purchase information. License# EF000020 www.HPIsecurity.com / www.HPIfire.com

Does your old burglar alarm...

see nothing?

hear nothing?

speak nothing?

Then Get Videofied

Video Verified Alarms by HPI

- Get faster, better police response when we tell them we see an intruder on site
- ~
- Increase apprehension rates with suspect descriptions and video evidence
- ~
- Reduce False Alarms by seeing what tripped the motion detector before dispatching
- ~
- No phone, No Power, No Problem! Totally self sufficient.

Videofied Delivers Apprehensions

For Purchase &
Installation call:

Instead of Recordings of Yesterday's Crimes.

Motion activates the integrated night vision camera and sends a 10 second video of what tripped the sensor to the 24x7 monitoring station and on to the site manager or property owner. Based on this instant eyewitness, operators dispatch police to a verified "crime in progress" instead of a standard alarm. Instant notification and priority response means apprehensions and greater security.

The Instant Eyewitness means fast response to catch intruders. In contrast, property owners use traditional CCTV systems and DVRs to review what happened after an incident occurs and identify the intruder. More often than not, identification is impossible because of poor lighting and intruders wearing masks or hoods.

EMPOWER Your Surveillance

Videofied enhances sophisticated surveillance systems, acting as "remote sentries" that can be located anywhere, providing instant video alerts of intrusions. Site managers or guard staff can use the power of their megapixel pan/tilt/zoom cameras and surveillance system to coordinate incident response.

Portable Camera Stand

Portable Remote Sentries

The portable battery powered P-Cam (PIR motion sensor with integrated camera and illuminators) can be installed anywhere; often mounted on portable stands that can be picked up and moved around as the situation demands- no trenching, no wires. The integrated PIR motion sensor detects intruders in storms and blizzards, ignoring the rain or snow.

- **No AC Power**
- **2 year Battery Life**
- **Weatherproof (-20F to +140F)**
- **Totally Wireless Operation**
- **Instant Installation, Portable**
- **Video Alarm sent over Cell Network to Monitoring Station**
- **Eliminate False Alarm Fines**

Videofied System

Outdoor Camera

Optional Outdoor Siren

Keypad

Control Panel

Basic Two Camera System is under \$3,000

- **Entire system operates outdoors on batteries for up to 2 years.**
- **Up to 24 cameras on a single system.**
- **Night illumination out to 40 feet.**
- **Wireless RF range between Cameras and Panel up to 2,000 feet.**
- **Motion Sensing up to 40 feet.**
- **Instant wireless installation anywhere.**

Self Powered
 (up to 2 year battery life)

Integrated GPRS Cell Module Communicator

Applications

- **Copper Theft**
- **Vacant Buildings**
- **Storage Trailers**
- **Rooftop Air Conditioners**
- **Oil Field Assets**
- **Construction Sites**
- **Cell Towers**
- **Temporary Buildings**
- **Commercial Property**
- **Agriculture**
- **Shipping Containers**
